What is "Patient Assistance"?

"Patient Assistance" is a term used to describe a charitable organization dedicated to providing help to individuals with difficulty affording the high cost of healthcare associated with their specific illness. These foundations offer financial assistance to eligible patients covering certain out-of-pocket health care costs. (For example: There are specific foundations established to help with co-insurance for certain cancer drugs or blood disorders, etc.)

Specific patient guidelines must be met for acceptance into these programs. Some of these guidelines include household income, insurance coverage, diagnosis, chemotherapy drugs, and available funding.

How do we help?

When our billing specialist has determined that you may be a candidate for assistance, she will refer you to the Patient Assistance Coordinator. From here, we try and match your diagnosis and therapy plan with a foundation that may be able to help. In order to begin the process, you will be asked to provide proof of income and diagnosis. Once all proper documentation has been obtained, we will submit your application on your behalf. From there, the foundation determines your eligibility.

It is important to note that regardless of your eligibility with Patient Assistance, and regardless of your status in these programs, you are still responsible for paying your co-payment. The assistance that you may or may not receive will help only with specific drugs, and not your entire balance. Please remember, you alone are responsible for your balance.

This service is not a guarantee of payment. It is simply to assist in trying to minimize your out-of-pocket expenses with our office. We encourage patients to seek out other forms of assistance as well as making payments on your balance. If you do take outside assistance, please let someone in our insurance and billing department know of your status in these organizations.

If you have any questions, please do not hesitate to contact me. I look forward to working with you.

Patient Assistance Coordinator

I understand the above specifications and conditions of the Patient Assistance Program and accept the guidelines listed above.

Ultimately, the patient is responsible for their charges. Patients should resolve disputed coverage issues directly with their insurer or employer. It is the patient's responsibility to know the details of their insurance contract and if whether your provider is a network provider for their particular plan.

When your insurance company processes your claim, they will provide you with an Explanation of Benefits (EOB). This EOB will explain what the insurance company has agreed to pay. Most insurance companies agree to pay only a percentage of the charges with the remaining balance being the responsibility of the patient. The EOB may use the term "Usual, Customary and Reasonable" (UCR). Insurance companies develop UCRs independently of one another. Therefore, because of policy deductibles, co-payments, non-covered services and UCRs, you may have a balance due after the insurance pays. No UCR adjustments will be honored unless the clinic has a signed contract in effect with that specific insurance carrier.

Medicare Policy

Federal law requires all physicians to file claims to Medicare.

We accept Medicare assignment. This means we agree to accept Medicare's allowance on services provided to you. You will still be responsible for your annual deductible, the co-payment, and any non-covered services specified by Medicare.

If you carry a supplemental plan to Medicare, please ensure we have your policy information so that a claim can be filed for you.

Medicaid

All Medicaid patients must present a valid stamped card prior to being seen. If the patient wishes to be seen without their validated card, they will be required to make payment at time of service or asked to reschedule.

General Credit Policies

All accounts are payable upon receipt of your first statement. Credit is extended as a courtesy, and arrangements will be based on demonstrated needs.

If you are not covered by a medical insurance plan, payment is expected at the time services are provided.

Hardship

Patients who are having financial difficulties may qualify for a reduction in a repayment plan or a financial adjustment on their account. They will be required to complete a financial form and include the necessary information to process their application.
